Photos: New Sensations

The Romance Series

New Sensations Brings on the Love

It's a revolutionary concept for adult films: produce beautiful, high-quality adult movies that focus on love, romance, fantasy, and relationships. Naturally, the films also include passionate sex, but the scenes flow naturally into the story line rather than being artificially manufactured just to have a certain number of obligatory sex scenes. New Sensations has taken that idea and expanded on it to create 'The Romance Series' and is now preparing to release their third title, An Office Romance. Although fairly new, the response to the series has been fabulous. The company is seriously reaching out to women and couples that crave adult films they can actually relate to. It only follows that couples will be enjoying a lot more porn together if the female finds the films realistic as well as pleasurable. We'd like to thank Ashlynn, Scott, and Lee Roy for sharing their behind the scenes insight with Undercover.

ASHLYNN BROOKE: Contract star Ashlynn plays Sabrina in *The Wedding Day*.

UC: You are the star of *The Wedding Day*, one of the most recent editions of 'The Romance Series'. Can you tell us a little bit about the story?

AB: I play the bride, Sabrina, and the story takes place the day of her wedding when a lover from her past confesses he still has feelings for her. The story is about her struggle to make the right decision as well as the situations her friends and family also find themselves in.

UC: What did you enjoy most about starring in *The Wedding Day*?

AB: I always love shooting, but this project is something that

I was especially excited about. I loved the story of *The Wedding Day* when I first read the script and couldn't wait to shoot it. One of my favorite parts of this movie was getting to portray passionate and loving sex on camera. I know that women everywhere are going to love it!

UC: Although it has only been out for a short time, the series is receiving outstanding feedback from women. What is it about this series that is drawing women in?

AB: Everything about it is great! I can't say it's just one thing that makes these movies so special. I sent copies to a bunch of my girlfriends to see if they would like them and now they won't stop bugging me about when the next one is coming out! But the best part was how excited their boyfriends were that they could watch porn together as a couple. Isn't that every guy's dream?

UC: Have you watched any of them with your boyfriend?

AB: We love them! We watch the New Sensations porn parodies all the time so the romantic movies are a nice change from the comedy. If you are a woman who has never dreamed of watching porn, these are the perfect movies to watch. You will be amazed at how different they are and how much you find yourself pulled into the characters and the story.

SCOTT TAYLOR: President, New Sensations

UC: How did the concept for 'The Romance Series' develop?

ST: We were receiving feedback from retailers about the lack of movies they could recommend to female customers looking for something to watch alone

or with their partner. Since most porn is made for men, this wasn't surprising to hear but at the same time it opened our eyes to a consumer we were interested in catering to.

UC: What makes 'The Romance Series' different from the other movies for women and couples?

ST: There are many aspects that make 'The Romance Series' stand in a league of its own, but the main difference is these are LOVE stories. The central theme in each of the movies is LOVE. Whether it is a story of a budding romance or a couple dealing with their relationship, these are stories that women and couples can identify with.

UC: Bringing romance to porn is a revolutionary concept. In what capacity did you have women involved?

ST: Well, all of the stories in our romance series are written by a woman. We also have a focus group of women that are involved in every step of the process. We already know how to make porn

that men love, but we needed a woman's input to properly produce something women and couples can enjoy and share together on a special night. These women were involved in every step of the process including reading scripts, being on set and assisting in post-production.

LEE ROY MYERS: Director of *An Eternal Love*, *The Wedding Day* and *An Office Romance*

UC: What can women expect to see when they watch 'The Romance Series'? How does it differ from the "stereotypical" porn?

LRM: They can expect to see something that is unlike anything they have seen before. 'The Romance Series' isn't the porn movie that is going to make a woman feel "dirty," but rather a movie she will enjoy enough to want to share it with her partner. The production value is second to none and no expense has been spared to ensure that the visual aspects match the beauty and intensity of the story.

UC: Are the sex scenes different?

LRM: The sex scenes flow seamlessly into the storyline which is something rarely seen in porn. This isn't "pizza guy porn" sex; this is passionate, connected and intimate sex that flows with the purpose of the story and creates romance. We are putting on the screen the type of fantasies women daydream about.

UC: What is the next release we can look forward to?

LRM: On April 19th, *An Office Romance* will be available in stores. It is a romantic comedy about two co-workers, Janet and Mark, who dream about each other but can't find the courage to tell one another. Janet is played by Monique Alexander and she pulled the role off seamlessly.
